

NEWFOUNDLAND CLUB OF AMERICA, INC.

September 17, 2008

Dr. Terry T. Warren
Executive Director
AKC Canine Health Foundation
PO Box 900061
Raleigh, NC 27675

Dear Dr. Warren,

Enclosed is a reprint of a letter, dated April 5, 2008, from Dr. Clyde Dunphy, Chairman of the Newfoundland Club of America (NCA) Charitable Trust Board, to Deborah DiLalla, former executive director of the Canine Health Foundation (CHF).

Last week, following our conversation at the conclusion of the Delegates' Canine Health Committee meeting, I rushed off to make you a copy of Dr. Dunphy's letter, which we had discussed briefly. I expected to see you again that day or the next, but I failed to find you in the throngs of people.

Members of the Newfoundland Club of America Trust Management Board still have questions and concerns related to the Donor Advised Fund for our breed. We will need your help in clarifying the present status of this matter. Please expect a follow-up to this communication as we are seeking current information about the CHF Parent Club Partnership Program, to which the NCA subscribed more than ten years ago. To my knowledge, the Newfoundland Club of America has not been advised of any change in the CHF Parent Club Matching Funds Program, approved by the Canine Health Foundation Board of Directors on March 10, 1996.

Sincerely,

Mary W. Price
AKC Delegate, Newfoundland Club of America
Member, NCA Trust Management Board
